ABOUT ME

Passionate MERN stack developer with a focus on the client side. Fast learner. Enjoy creating web applications from scratch. Eager to improve my knowledge. Flexible with learning new technologies.

EDUCATION

Bachelor of Science in Computer Science

Portland State University | Sept'18 - Dec'20

Electrical and Computer Engineering

Portland State University | Sept'15 - June'18

PROJECTS

Portland State University Capstone Project

EMS Calculator.

Delivered a web application with a team of fellow CS students to estimate the fastest route to a hospital, either by an ambulance or a helicopter. Worked on the UI functionality and design using React, React Context Api, and CSS.

Full-Stack Web Development Course Project

Designed, developed, and deployed a Full-stack store with a fellow student using MongoDB, Node.js, Express, React & Redux, and CSS.

Clone Web Applications

Cloned popular websites such as Hulu, Netflix, Amazon, Google, Facebook, Nike, Apple, Discord, Youtube, and more from scratch. Focused on using React, React Context/redux, CSS and/or Node.js, Express, MongoDB. Deployed using Heroku, Github Pages, and Firebase.

Portfolio Templates and Other

Designed, built, and deployed multiple portfolio templates and business applications mainly using React and CSS.

Frontend Web Development Course Project | COVID Tracker

Designed, built, and deployed a frontend COVID'19 live tracker using React, Redux, CSS, and GitHub Pages.

LANGUAGES & TECHNOLOGIES

JavaScript, HTML/CSS, React, Redux, React native, Node.js, Express, MongoDB, bootstrap, Visual Studio, Git, Heroku, Firebase

Exposure: C, C++, Java, python, SQL, PostgreSQL

Methodologies: Agile, OOP
